The Factors That Influence
Intent to Follow
GOLD Guidelines in the Primary Care Setting

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | GOLD Guidelines in the Primary Care Setting | Chronic obstructive lung disease (COPD) is a growing cause of death in the United States. The symptoms of COPD are the number one reason people seek medical attention from primary care providers (PCP). Patients often receive symptomatic treatment without further testing. This action research examined the PCP s perceived characteristics of spirometry and their intent to follow the GOLD COPD guidelines. The participants in...
