GRIN Verlag GmbH Jun 2015, 2015. Taschenbuch. Book Condition: Neu. 210x148x1 mm. This item is printed on demand - Print on Demand Neuware - Scientific Essay from the year 2012 in the subject Politics - International Politics - Region: South Asia, , language: English, abstract: China s policies seem to be in many ways far apart from what western societies consider being fair and just. The reason is that the Western hemisphere shares a fundamentally different belief system of what 'justice' and freedom' mean. This leads to the main question of this paper, if China s growth is 'socially pathological'. For answering that, we will first compare China with 'free market' democracies, in a second step provide some data representing indicators for China s 'social level' and in a third step talk about 'workforce exploitation' and perpetrators of partially difficult circumstances. 12 pp. Englisch.
