ABC-CLIO, United States, 1990. Hardback. Book Condition: New. annotated edition. 239 x 160 mm. Language: English . Brand New Book ***** Print on Demand *****.This up-to-date bibliography of heretofore scattered references to nursing assistants includes literature pertinent to the construction of models to improve nursing assistant practice and emphasizes the psychosocial skills that are invaluable to the nursing assistant s work. Nursing assistants provide as much as 90 percent of the direct care received by the elderly in the nursing home setting. Emphasizing the psychosocial skills that make the nursing assistant s job so important to the well being of nursing home residents, Geriatric Nursing Assistants collects and annotates the heretofore scattered references to nursing assistants and includes literature pertinent to the construction of models that improve nursing-assistant practice. The first four chapters present the annotated reviews, which are organized in anticipation of the practice enhancement models discussed in Chapter Six. These reviews center on the tasks and context..
