Reviews

If you need to adding benefit, a must buy book. Better then never, though i am quite late in start reading this one. I am effortlessly could possibly get a satisfaction of reading a created pdf.
(Trevor Von)

FARM ANIMALS: TILLAGE AND CULTIVATION (CLASSIC REPRINT) (PAPERBACK)**DOWNLOAD**

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Farm Animals: Tillage and Cultivation Harrowing, dragging, rolling, or planking are only continuation processes to pulverize and aerate the soil, to increase the capillarity, preserve the film moisture, and encourage the growth of beneficial soil bacteria by control of soil temperature and ventilation. Harrowing should follow plowing as nearly immediately as possible so that soil moisture may be prevented from escaping, and that the hard parts or clods may be pulverized before they have become hardened by the escape of the soil moisture. Many very successful farmers plow no more soil than can be harrowed the same day. The roller and the planker, because of their weight, press down upon the soil so heavily that the soil particles are brought close together, and incidentally crush clods not broken up by the harrow. The harrow or the planker fines the surface. The so-called disc harrow, when set at the proper angle, packs the soil far below the surface and re-establishes capillarity between the plowed and unplowed soil. By packing the subsurface and the surface by the disc harrow and the roller or the planker, much can be done to retain soil-moisture and to increase the upward movement of film water. Horses hitched to tillage implements help to compact the soil by walking over it. After the soil has been broken up by plowing, it must be firmed to give root contact and support. Time in preparing a seed-bed is always well spent. The conditions that favor the growth of the desired crop also favor the growth of weeds, which crowd the cereals and take plant food and soil moisture. When the seed-bed is well prepared and the seed, wheat,...
