Date :2011-07-01 version 1 by Wu Li-hui in the preparation of extension and the mechanical and electrical control technology is a vocational education to meet the mechanical engineering machinery manufacturing and automation . CNC machining. mold manufacturing. mechanical and electrical integration of the direction of teaching and other professional needs. from the ability to apply technology to develop and enhance the quality of education starting. the original hydraulic and pneumatic. electrical machine control. PLC technology. Detection and sensing technology. numerical control technology and a few doors from the professional preparation of the basic curriculum integration. Electrical control technology six chapters. including hydraulic control technology. low-voltage electrical control. testing and sensing technology. motor drive and control technology. control technology. and include CNC programmable. computer-aided design and manufacturing. flexible manufacturing systems and computer integrated manufacturing systems. industrial robots and other cutting-edge technology. including electrical and mechanical control. more comprehensive and systematic introduction to the mechanical and electrical control technology. Electrical control technology strictly follow necessary and sufficient principle. focus on practical. highlighting the basic concepts. refining the content concise. for higher vocational education and higher education institutions specialized machinery for professional use. but also for ordinary institutions of higher learning students and related engineering and technical officers. Contents: Preface Introduction Section I Overview of an electrical control technology. mechatronics technology. the basic concept of two. mechatronics technology. mechanical and electrical control system development process. Section II the basic structure of one. composed of two mechanical and electrical control systems. electrical control system technology Section electromechanical control technology status and prospects of a major. major mechanical and electrical status of two control technology. mechatronics technology...
